VON BUELOW IS PARALYZED

After Finishing Speech in
German Reichstag
Thursday

PROLONGED REST NECESSARY

ATTACK DUE TO INFLUENZA AND TO
OVERWORK ALSO

Chancellor Had Just Spoken on Sub-
ject of the Algeiras Agreement
When He Fell.

(Bulletin.)
Berlin, April 5.—Chancellor Von Buelow suffered a paralytic stroke this afternoon. The fainting spell in the Reichstag earlier today was the forerunner. He is progressing favorably considering the nature of his illness. The attack is attributed to overtaxing of his strength in behalf of Germany at the Algeiras conference while under a great strain for nearly a year. The Kaiser was hastily summoned and the crown prince, minister and other high dignitaries, quickly appeared at the prince's palace.

Berlin, April 5.—Prince Von Buelow, German Chancellor, was overcome with a fainting attack in the Reichstag today and carried unconscious to an ante room. The Chancellor had just finished making an address on the subject of the Algeiras agreement when he suddenly fell heavily to the floor. Immediately the meeting was adjourned. Three physicians worked to revive him, but failed even after the chancellor was removed to his official home, one mile distant. Regarding the Moroccan question, Von Buelow declared that Germany had intervened in Moroccan affairs to prevent the ignoring of legitimate interests and to secure her fair share of the commercial spoils and the maintenance of the "open door" in Morocco as everywhere.

Von Buelow finally regained consciousness. The physicians announced that he had been overcome by an unusually severe fainting fit, as a result of the influenza and overwork. They declare that prolonged rest is necessary to restore the count.

NEWS BOILED DOWN

Japan's emperor wishes to decorate the American officers who were with his army in the Jap-Russo war.

Duncan Clark, famous broncho buster, was accidentally killed in Wyoming while hunting.

Acres of barges filled with coal are hugging the banks of the Ohio at Louisville.

A block of ground bounded by Estlin, Eastman and Sulphur avenues, St. Louis, has sunk 15 feet in 30 days. Several houses are in danger.

Rev. F. H. Rouse committed suicide at St. Paul, Minn. health.

The Russo-Chinese negotiations appear to have reached a deadlock. They are dragging slowly at Peking.

Two Pullmans dived at Folsom, I. T. J. W. Keating, Chicago, H. R. Brinker, Louisville and J. A. Hargrove, Sulphur, Texas, injured.

J. T. Burdett, bank president at Muskogee, I. T., was murdered yesterday.

Clyde Shropshire sues the Fayette National bank of Lexington, Ky., for \$100,000 for false arrest for forgery.

Mrs. William Warnick near Frankfort, Ind., burned to death in a kerosene explosion.

Miss Florence Parker, whose mysterious sleep for seven weeks excited the interest of the medical fraternity, has left hospital at Los Angeles, Cal.

While saying requiem mass at the funeral of one of his parishioners, the Rev. John Dempsey, 60, resident priest of St. Bernard Catholic church, Crawfordsville, Ind., fell dead in his pulpit.

Charles W. McGlenen of Creston, O., wanted at Wooster, O., to answer to a charge of embezzling about \$2,000 from the Union Central Life Insurance company of Cincinnati, was arrested in Minnesota.

STUBBORNLY

Refused Food for Thirty-Three Days
and Voluntarily Starved Him-
self to Death.

Wheeling, W. Va., April 5.—Voluntary starvation in the Reynolds Memorial Hospital was the cause of the death of Robert Barlow, a baker. He came to America from Vienna two months ago. He was ill and had no money nor friends. He was placed in the hospital and later his mind became deranged.

When he regained his mind he refused to take nourishment and physicians and nurses alike were unable to force him to eat. Not a single morsel of food had gone down his throat for 33 days before his death.

BURIED MINER GAVE UP HOPE

AND MADE AN EFFORT TO END
HIS LIFE BY OPENING AN
ARTERY.

Lost Track of Time and Thought He
Was Entombed Eight Instead of
Twenty-Five Days.

Paris, April 5.—The newspaper Intransigent today says that several survivors of the mine disaster of March 10 at Courrières, who are in a desperate condition are being nursed in the depths of the mine.

Auguste Berthou, the French miner, who was rescued Wednesday after having been entombed 25 days as a result of the Courrières disaster on March 10, which cost hundreds of lives, thus described his awful experience.

"I was working with my cousin when an explosion occurred and we became separated. Afterwards, alone, I groped about in the darkness, trying to find an outlet. I first found a dead horse, but was unable to eat any of its flesh. Later I found some lunch bags, which had belonged to men who had been killed by the explosion, and I lived on the food I found in them. I suffered from the cold and took nothing and shoes from the dead. I also found three watches and 24 sous. At one time I gave up hope and tried to commit suicide by opening a vein. I slept ten times and tried to count the days, estimating that eight days had passed since the explosion."

When the engineers came up from the Courrières pits they were attacked by a crowd of women, crying: "Death to the murderers." They were rescued by a squadron of dragoons. The people are intensely excited. They believe that there are other men alive in the mine, and serious disorders are threatened.

Early morning reports Wednesday said that 10 more miners had been rescued but the afternoon cablegrams corrected this report. Berthou was the only one rescued Wednesday as published in the Advocate's press dispatches that day.

ETHEL BARRYMORE HAS APPENDICITIS.

Boston, April 5.—Miss Ethel Barrymore, the actress, became suddenly ill in this city yesterday and her physicians diagnosed her case as one of appendicitis. She will be operated on today. Miss Barrymore has been playing this week at the Hollis street theater in "Alice Sit by the Fire." Her season has been closed and her company will go to New York.

BROODED

Over an April Fool Joke Played on
Him by His Wife and Cut
His Throat.

Atlanta, Ga., April 5.—As the result of brooding over an April fool joke perpetrated upon him by his wife, Sunday, W. O. Roberts, a local merchant, slashed his throat with a razor and will probably die. Mrs. Roberts was painfully cut while struggling with her husband to get hold of the razor, which she finally managed to take from him.

Mrs. Roberts, Sunday, in a playful mood, told her husband there was a cow in the yard. After learning that he had been fooled Roberts became morose and sullen and refused to speak to his wife.

While the doctors were stitching his throat Roberts managed to say: "I have been a good husband to her for years and she ought not to have played an April fool joke on me."

BURLINGTON WRECK.

Lincoln, Neb., April 5.—The Puget Sound flyer on the Burlington was thrown into a ditch this morning near St. Michael, Neb., 125 miles west. The engineer ran several miles to the nearest station to report the wreck, arriving nearly crazed. Advices say that nobody was killed.

BIG TARPON

Captured After a Long Fight by Gro-
ver Cleveland, Who Starts for
Home Thursday.

Stuart, Fla., April 5.—With one of the biggest tarpon ever taken in Florida waters to his credit, former President Grover Cleveland packed his traps and left today for home, accompanied by Dr. Joseph Bryant, his physician, and Prof. Howard McClenahan, of Princeton. The tarpon of which the former president is so proud was taken Monday and is a beautiful specimen, very large, and only captured after a long fight.

Mr. Cleveland has thoroughly enjoyed his stay here and has had fine sport. He seems to be in perfect health.

LAWSON PROXIES ARE INVALIDATED

Albany, N. Y., April 5.—The first of the ten bills proposed by the special investigating committee as the result of its investigation of life insurance conditions is now a law. Governor Higgins yesterday afternoon affixed his signature to the bill which postpones until Nov. 15, the annual elections of the New York Life, Mutual of New York, Mutual Reserve of New York, and Security Mutual of Birmingham—the four purely mutual life insurance companies incorporated under the laws of this state. It does not affect the Equitable Life Assurance society, which is a stock company. In signing the bill the governor issued a memorandum sharply criticizing the directors whom he thus legislated from office.

One of the most important effects of the act is that it invalidates every proxy hitherto secured, whether by the companies themselves, by Thomas W. Lawson of Boston, or any one else.

TOO ILL

To Resume His Seat in the Senate
This Season and Depew May
Tender Resignation.

New York, April 5.—Authoritative announcement that Senator Chauncey M. Depew, who is ill and in a family retreat in Westchester county, will not be able to resume his duties as United States senator during this session of Congress, has set the political gossip to talking again of the prospect of the senator's resignation. No one would be surprised if he offered it at any time.

VON BUELOW

On the Result of the Moroccan
Conference.

Berlin, April 5.—Chancellor Von Buelow gave the following estimates of the result of the Algeiras conference: "The principle of equal privileges for all countries in Morocco has been asserted and maintained. That was the contention of Germany from the beginning, the one thing that German diplomacy strove for. While Germany has obtained those things which she sought, France has obtained, first, recognition of her special position as neighbor of the sultan by international legitimation of her right to maintain order adjacent to the Algerian frontier, a right which Germany never contested; second, by a large share in the state bank, and third, by having entrusted to her the instruction of the police in company with Spain and under international supervision. The American government's advice and attitude were helpful, especially during the latter stages of the conference. Mr. White was a conciliatory force."

FAMOUS INDIAN ATHLETE, HIS BRIDE AND WEDDING ATTENDANTS.

Indian Wedding Party. Carlisle Indian School.

CARLISLE, PA. April 5.—The wedding of Wilson, Charles, a famous Indian athlete, and Elizabeth Knudsen, a beautiful Klamath Indian maiden from California, was celebrated with imposing military ceremony before 1000 "redskins" and invited guests. Major Mercer, superintendent of the Carlisle Indian School, gave away the bride. The bride wore white net over silk and carried a shower bouquet of roses and lilies of the valley. Her attendants were embroidered battiste. Mr. Charles wore a Carlisle staff officers uniform and his party wore dress military uniform.

NEWARK MAN FATALLY HURT

J. W. Anderson Mangled by
Cars Near Corpus
Christi, Texas.

BOTH ARMS AND LEG CUT OFF

VICTIM OF ACCIDENT IS LINEMAN FOR
WESTERN UNION

Taken to Corpus Christi Thursday on
Special Train to Receive
Treatment

A telegram to the Advocate from Corpus Christi, Texas, signed "J. W. Falvelle" brought word Thursday afternoon of the probable fatal injury of J. W. Anderson, 23, a resident of Newark. The message follows:

Corpus Christi, Tex., April 5.—While going from the Western Union boarding car to another on a moving train, twenty miles east of Refugio yesterday evening, J. W. Anderson, of Newark, Ohio, aged 23, a Western Union lineman, fell between the cars, having his right arm at the wrist, his left arm below the elbow, and his left leg above the knee cut off. He was brought here on a special train this morning, but is not expected to live.

GOV. PATTISON HAS MOST RESTFUL NIGHT

Columbus, April 5.—It is today reported that Governor Pattison spent a most restful night and the hopes for his recovery are consequently strong. Hereafter but two bulletins will be issued daily one at noon and the other at midnight.

Thursday Noon Bulletin.

"Governor Pattison passed a peaceful night and morning, slowly but steadily gaining in health. Pulse 96, respiration 20, temperature normal. (Signed) "Wilson and Holt."

WILL HOLD POST MORTEM.

New York, April 5.—To determine the exact cause of the death of Paul Nocoquet, the balloonist whose body was found on Cott Island last night, an autopsy will be held this afternoon. It is believed Nocoquet died from heart failure, following complete physical exhaustion and mental anguish when he believed he was being carried to sea by the balloon.

TRAVEL OF A BRISTLE.

Eleventh, Minn., April 5.—A year ago a bristle from a tooth brush lodged in Miss Agnes Seeltar's throat. The bristle was extracted from Miss Seeltar's arm yesterday.

MAE WOOD'S FAMOUS CASE AGAINST SENATOR T. C. PLATT IS DISMISSED

Miss Mae C. Wood.

OMAHA, April 5.—The sensational suit filed by Miss Mae C. Wood against United States Senator T. C. Platt, William Loeb, secretary to the President, and former Postmaster General Wynne, for \$150,000 damages, was called in court yesterday, and dismissed by Judge Kennedy because no one appeared for the plaintiff. Miss Wood alleged that she had written a book entitled "The Love Letters of a Boss," which comprised a number of letters written to her by Senator Platt. She said that Platt, with the assistance of Wynne and Loeb, got the letters from her and refused to return them.

LARGE HALL COLLAPSED FROM 100 TO 300 DEAD

BERLIN, April 5.—(Bulletin.)—A large hall attached to the Hotel Black Stag, in Nagold, (South Germany), collapsed today while the place was crowded with members of local associations who were celebrating an annual fête. All were buried beneath a heap of ruins. Estimates regarding the number killed vary from one hundred to three hundred. Many corpses have already been extricated from the ruins.

Nagold is a town in Wurtemberg that had a population of 3,510 in the year 1890.

VILLAGERS FLEE FROM MT. VESUVIUS.

ROME, April 5.—Mount Vesuvius is again in eruption and the situation is very serious. Five streams of lava are descending the mountain sides into the villages. All residents of the neighboring villages have left their homes and taken refuge out of reach of the lava.

SWIFT DEAD.

Chicago Meat Packer a Victim of Pneumonia.

Boston, April 5.—E. C. Swift of Chicago, a member of the packing firm of Swift & Company, died at an early hour today at the Quincy House, where he had engaged rooms about two weeks ago. Pneumonia was the cause of death. Mr. Swift was taken ill with pneumonia on March 27. He had come to this city from his country estate at Beverly Farms in order to be near his friend and business associate, N. E. Hollis of Boston, who was undergoing an operation. Mr. Swift grew rapidly worse and his daughter, Mrs. Clarence Moore of Chicago, was summoned. His physician, Dr. Johnson of Chicago, watched by the sick man's bedside until he died.

Gen. Von Mack, Russian, just home from the East, says Japan covets the Philippines.

FOUND DEAD.

French Sculptor's Balloon Ascent Ends Disastrously.

New York, April 5.—Death in the waters of Bass creek, a small stream winding through the meadows along the south shore of Long Island, ended the daring balloon ascent of Paul Nocoquet, a French sculptor of note and an enthusiastic amateur aeronaut. The body was found on the muddy shore of the creek where the tide had left it, and not a great distance from where Nocoquet's collapsed balloon was discovered by the lifeguards of Jones Beach. Nocoquet apparently landed safely with his car, and in fighting his way out of the meadows in the darkness had traversed about two fifths of the distance from Jones Beach to Amityville, seven miles, when he died. He had crossed 13 or 14 different islands and had swum or waded through the runnels between them.

SOCIAL EQUALITY IN SOUTH WILL COME

Greensboro, N. C., April 5.—In an interview here Jerome K. Jerome says: "I believe that three generations hence will witness social equality between the white and black races in the south. The present feeling against the colored man in the south is due to prejudice which is fast being wiped out. The future will no longer know the black man, as I predict there will eventually be an amalgamation of the white and colored races, due to the low moral code of ethics that now prevails. No English gentleman would refuse to sit at the same table with a negro, and the time will eventually come when the same thing will prevail throughout America and in the Southland."

TOO MUCH EXERCISE.

Iowa City, Ia., April 5.—Leo Struble, 19, a freshman in the College of Engineering at the State university, died suddenly as a result of exercising on the club track.

SECRET SESSION! IN ZION CITY

Church Officers Preparing
for Return of Dr.
Alex. Dowie

"ELIJAH" LEAVES MEXICO

SO CALLED POLYGAMOUS TEACHING
UNDER DISCUSSION

Just What Will Happen When the Doc-
tor Gets Back Remains to
be Seen.

Chicago, April 5.—Word was received at Zion City today that Dr. Dowie leaves Mexico City tonight for Chicago. Continuing the policy of preparation for the advent of the erstwhile leader, Overseer Voliva today called in secret session all the church officers. It is stated that the principal topic of discussion was the so-called polygamous teachings of the "prophet." Incidentally the relations of Dowie with the women of the church were gone into and such documentary evidence as may be needed in prosecuting the case was brought forth. Whether Dowie on his return next week will be permitted to participate even in spiritual affairs, whether admitted into Shiloh house, now occupied by Mrs. Jana Dowie, or whether efforts will be made to banish him from the city are questions yet unsettled, according to Deacon Barnes.

SUNKEN HULL

Seen at Sea May be That of the Over-
due Steamer Centennial—Sixty
People Believed Lost.

San Francisco, April 5.—Officers of the Northwest Steamship company's steamer Pennsylvania arriving here from New York, report that when ten days from this port the masthead and part of the deck planking of a wrecked steamer were sighted drifting before the wind. The Charles Nelson company's steamer Centennial is now 20 days overdue from Hakodate and shipping men are speculating as to chances of the sunken hull and masthead belonging to that vessel. Fifty-nine persons were aboard the Centennial when she left Japan and steamers arriving have brought no word of her.

AROUND HIS NECK

Was Rope When Ince Demanded Din-
ner and Got It Before Hanging
for Murder.

Memphis, Tenn., April 5.—J. W. Ince, twice sentenced to hang for murdering his wife and three children near Whiteley, Ark., last spring, was executed at Danville, Ark., yesterday. Ince made a speech on the gallows, touching on the political situation in his state, and, with the rope about his neck, asked the sheriff to let him have his dinner before being hanged. Sheriff Briggs took him back to the jail and served his dinner, and then escorted him back to the gallows.

ELECTRIC CHAIR

Takes the Place of the Hangman's
Noose in New Jersey.

Trenton, N. J., April 5.—Governor Stokes has signed Senator Wakelee's bill substituting electrocution for hanging in New Jersey after March 1, 1907.

KAISER PRAISES AMERICA.

Berlin, April 5.—At the dinner given last night by United States Ambassador Chauliagne Tower in honor of Emperor William, the subject of America's international position was discussed. The emperor praised the part played by the President in bringing about peace in the Russian-Japanese war and at the Algeiras conference. He declared the United States is gaining a merited reputation as one of the principal peace-making factors in international affairs.

and frankly, describing your symptoms. We will consider your case and give you free advice (in plain sealed envelope). Don't hesitate, but write today. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

WITNESS TRACY FACES PERJURY CHARGE IN COURT

R. C. LINGAFELTER CASE WILL
BE HEARD BY THE CIRCUIT
COURT THIS TERM.

Effort Made to Put It Off—Damage
Suit for \$5000—Day's News
of Court House.

An additional indictment returned by the grand jury is that of William Tracy, charged with perjury in the Harry Friener murder case. Tracy was a witness for the defense and testified to having witnessed the shooting which resulted in Thomas Osborne's death.

R. C. Lingafelter's Case.
On Tuesday night of this week County Clerk J. W. Hursey sent the bill of exceptions in the Robert C. Lingafelter case to Judge Maxwell to be approved by him. This was done by the clerk at the request of Prosecutor J. R. Fitzgibbon in order that the case could be presented to the Circuit court at this time. Notwithstanding the fact that the bill of exceptions was taken with the approval of the clerk of the court, somebody sent a telegram to Judge Maxwell that the bill of exceptions had been taken out of the clerk's office without the knowledge, consent or approval of Clerk Hursey. Judge Maxwell, by using the telephone late at night, learned the true facts in the case and the case will be heard at this term of the Circuit court.

Action for Damages.
Albert Palmer, by his attorneys, J. A. Ivers, A. A. Porter and L. C. Russell, has commenced suit in the Common Pleas court against the American Bottle company of this city, for \$5000 damages. Plaintiff says that he was employed by the company, and that on the night of October 21, 1905, while he was engaged in the discharge of his duties as a laborer, he was ordered by the foreman to go from the building where he had been stationed on an errand to the engine room. He says in his petition that the space between the building and the engine room was extremely dark at the time and he was wholly unaware of the location of a barrel near the west wall of the engine room that had been sunk in the ground to receive and carry away the waste water oil and steam from the machinery, and which at the time was filled with intensely heated and scalding water, oil and steam. He says that while he was going on the errand in obedience to the foreman's instructions, without any fault or negligence on his part, he stepped into the barrel; that his right leg was scalded and seriously burned above the knee, so that the skin and flesh separated therefrom and that by reason of his injuries he was for a period of three months or more confined to his bed and wholly prevented from performing any labor or work whatever, and was compelled to expend for medical attendance and nursing \$150. He says that by reason of his injuries his nervous system was greatly shocked, broken down and impaired, and that he is permanently injured for life, and that he has been damaged in the sum of \$5000, for which he asks judgment.

In Circuit Court.

Thursday morning the Circuit court resumed the trial of the case of Katherine Criticos vs. Andrew Utrivis, and the matters at issue were taken by the court under advisement. The controversy is to determine the priority of certain claims presented to the receiver of the Greek candy store on the south side of the square, Mrs. Criticos claiming that a mortgage which she holds against the stock of goods is a preferred lien. Kibler & Montgomery, Black, Stasul-Pulton & Fulton, Rector.

The bill of exception in the R. C. Lingafelter case has been received by the clerk of the court, signed by the trial judge. It was suggested to the court that the hearing of the case by the Circuit court be advanced on the docket. If the case is entitled to be advanced the Circuit court will be asked to take the matter up Thursday next.

Probate Court.

Mrs. Martha A. Farmer of Outville, was granted a pension by the Probate court under the law providing pensions for blind persons.
Ollie M. Handel, guardian of the estate of Harry L. Handel, has filed her first and final account.
William A. Johns, guardian of the estate of Daniel Johns, has filed his second account.

For Assault and Battery.
In the case of the State of Ohio vs. Harry Parks and Ernest Garrison, charged with making an assault and battery on George Peters, the defendants appeared before Justice Lake and entered a plea of guilty of assault. The justice fined them \$1 and costs each. Peters paid his fine and was released, but Garrison was unable to pay and was committed to the county jail.

Marriage Licenses.
Earl B. Penn, Alexandria; Ida May Baker, Alexandria.

Newspaper Reading a Necessity. Doubtless there is such a thing as the newspaper habit which comes to be a form of mental dissipation and tends to weaken the power of close attention and prevent the sort of study and concentration which leads to intellectual growth. That should be avoided, but no man of today however much he may be absorbed in his occupation, or however much he may pride himself on a culture that consists chiefly in knowledge of bygone things can afford to neglect or be ignorant of the marvelous daily record that is made in print of the time in which he lives.—Cincinnati Enquirer.

A. N. BANTON. ELECTRICAL CONTRACTOR AND SUPPLIES.

Celling and desk fan, No. 49 North Third street, with Sayre, the plumber. Citizens phone, office 107; res. 664.

JOHN M. SWARTZ, Attorney-at-Law.

Practices in all courts. Will attend promptly to all business entrusted to him. Special attention given to collections, administration of estates, accounts of administrators, executors, guardians and trustees, carefully stated and attended to. Special facilities for obtaining patents in all countries. Office over Franklin National Bank.

GOOD ROADS LEGISLATION

Passed by Last Session of General Assembly—Codification of Law—State Appropriations.

Columbus, April 5.—Quite an advance was made in the direction of good roads legislation during the past session of the Legislature. Among the bills passed was that of Representative Wertz of Wayne county, which provides for codifying the laws relating to township roads and repeals unconstitutional and conflicting statutes that have been placed on the books from time to time. It provides for the establishment of the office of township road supervisor and requires the payment of all road taxes in money. It does not abolish the two days work known as the poll-tax, there being a difference between the poll-tax or the two day work and the road taxes which are levied on the property in townships. It is the latter taxes that is required to be paid in money. It requires the township trustees to divide the townships into not less than one nor more than four road districts, each district to be in charge of a road supervisor who shall receive not more than 25 cents an hour for each hour actually employed. It places the control of all roads in the hands of the township trustees who shall direct the road improvement. Under the old system the control of the roads was in the hands of the supervisors. The old system has been in force in Ohio since the state was organized as a state.

It requires all township trustees and road supervisors to come into the county seat one day in each year and receive instructions from the highway commissioners department as to the manner of repairing the public highways along scientific lines. The law takes effect December 1, 1906. The bill carries the recommendations made by the Ohio Good Roads convention and is approved by the state highway commissioner. The author of the bill, Mr. Wertz, is the author of the bill creating the state highway department which also provides that the state of Ohio raise by 25 per cent. of the cost of construction of permanent highways in the State of Ohio and provides that the townships in the county together with the abutting prop-

erty owner shall divide the cost of building important highways.

The general appropriation bill as passed contains an appropriation of \$200,000 for the years 1906 and 1907 to pay for the state's portion of the expenses for building highways in the state of Ohio.

In order to get this money each county must pay three times the amount which will be expended under the supervision of the state highway department, which will necessitate the expenditure in the state of Ohio this year and next year of \$1,200,000 for the construction of permanent highways.

In the construction of these roads there will be built four or five miles of improved turnpikes in each county of the state.

The general assembly also passed at this session a bill providing for the licensing of automobiles, which will put into the fund of the state, to be divided equally among the counties, for the construction of improved highways, about \$750,000 each year, raised exclusively by a licensed tax on automobiles. This part of the bill came from the good roads committee in the house.

With the passage of the bill abolishing supervisors, Ohio has a complete set of laws for the care of roads, and for the construction of improved roads that are logical and consistent and completes the work the authors of the measures set out to accomplish in the 76th general assembly.

A Young Mother at 70.
"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sells Strongly. Liver and Kidneys right, purifies the blood, and cures Malaria, Biliousness and Weakness. Wonderful Nerve Tonic. Price 50c. Guaranteed by Hall's Drug Store.

TUXEDO CLUB 10¢ CIGAR IRON TRADE REVIEW

Cleveland, April 5.—The Iron Trade Review in its issue of today reports improved inquiry for all grades of pig iron. Some interests have entered the market for tonnages of good size and these, in addition to the ordinary run of small lots, are furnishing furnaces with practically all the business they can attend to. The Inland Steel company, Chicago, has purchased 10,000 tons of basic iron and the output for the first half is practically exhausted. Bessemer is also in strong demand, with indications that the Steel Corporation will take the small unsold April balance. One important Pittsburgh interest is reported short for the first half. There has been some shading of prices of foundry iron in Ohio, particularly in the southern section, but the market is still close to \$17. Southern quotations have been reduced to \$14, by the leading interest, which is nearer the figure at which current business has been closed.

Iron and steel interests manifest little anxiety over the coal strike, as considerable coal will still be mined in the bituminous section and an immense amount has been stored. Coal prices have gone soaring. Rail sales continue heavy. Specifications on structural contracts are extremely heavy and jobbers report brisk trade. Wire rods have advanced \$1 per ton and the demand is heavy.

HOUCK BOOMED FOR CONGRESS

MT. VERNON MAN SECRETARY TO GOV. PATTISON MAY BE A CANDIDATE.

In Congressman Webber's District This Year—Frank Owen of Mt. Vernon is a Candidate.

Mt. Vernon, April 5.—Prominent politicians of Mt. Vernon are booming Frank Owen, of this city, for Governor. Owen is now on the Democratic nomination of the 14th district. On account of the split in this normal Republican district, caused last fall by the bolt of Congressman Webber, the Democrats are thought to have a

SECRETARY HOUCK.

fighting chance to win. Houch has been the only one prominently mentioned thus far.

Republican leaders of the district are determined that Webber's seat must fall. Thus far there are three avowed candidates, Webber and Chamberlain of Lorain, and Frank Owen of Knox county. Mr. Owen is well known in Newark. He was one of the lawyers in the Lingafelter trials. Judge Thomas of Huron county, ex-speaker of the Ohio house, has also been mentioned.

DOES THIS SUIT YOU?

City Drug Store, the enterprising druggists of Newark, O., are having such a large run on "Hindiplo," the new Kliney Cure and Nerve Tonic, and hear it so highly praised that they now offer to guarantee it in every case to cure all forms of Kidney Troubles and Nervous Disorders.

They pay for it if it does not give you entire satisfaction.

If you use it, it is their risk, not yours. A 50-cent box sent by mail under positive guarantee.

Races at Palace.

The ladies' races at the Palace rink continue to attract large and enthusiastic crowds. Two more ladies entered the contest last night and the final race on Saturday night should prove very exciting.

April 11th will be another feature evening. A grand fancy skating contest has been arranged, and is open to all, with the exception of professional skaters. Ladies and gentlemen who can perform on skates should enter this contest. Handsome prizes are being offered. Don't forget to be on hand April 11th.

OLDEST AGENCY

On April 1 the corporation of the Lyman D. Morse advertising agency became known as the Morse International agency. This agency had its beginning over 60 years ago, and met with success from the start. It is not only the oldest but one of the best. Owing to increase of business, necessitating larger offices, the corporation will move its offices on May 1 to the Revillon building, 19 West 34th street, New York.

MANEUVERS FOR GUARD IN AUGUST

ADJUTANT GENERAL ARRANGING FOR BIG DIVISION ENCAMPMENT.

Athens and Tuscarawas Counties Are Bidding For the Camp This Summer.

Adjutant General Hughes is planning for a division encampment, with maneuvers, for the National Guardsmen next August, similar to that held two years ago in Athens county. Athens county is again a bidder for the encampment while a site in Tuscarawas county is also under consideration. Another site in eastern Ohio may be inspected.

The encampment is made possible by the action of the Legislature in allowing a liberal appropriation for the transportation of troops. The usual representation of United States infantry will be allotted.

Carpet and Rug Sale this week. The Powers-Miller Co. 2-11

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mansell, Maryland black, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. C. T. Bricker, Special Agent.

DEAL IS CLOSED FOR OHIO ROADS

PENNSYLVANIA LINE SHORTENS ROUTE BETWEEN NEW YORK AND CHICAGO.

Result of Rivalry Between Eastern Roads—To Build a Connecting Link.

Chicago, April 5.—Rivalry between eastern railroads has become so keen that an effort is being made to secure shorter mileage between Chicago and New York. The first step has been taken by the Pennsylvania, which has secured control of the Findlay, Fort Wayne & Western and the Northern Ohio roads. With possession of these two roads it will be possible for the Pennsylvania to shorten its mileage between Chicago and New York by 100 miles. The Findlay road extends a distance of 78 miles between Findlay and Fort Wayne. The Northern Ohio extends from Delphos to Akron, a distance of 162 miles. A link to connect the two roads, it is said, will be built from Findlay to Carey.

With such a new cut-off the Pennsylvania mileage would be reduced to 268 miles between Chicago and Pittsburgh, and would enable the road to reduce the time of the Pennsylvania special from 18 to 16 hours between New York and Chicago. It is the purpose to use the new line exclusively for passenger service and the old tracks for freight. The old line will be shortened 50 miles by the construction of a section a distance of 40 miles between Plymouth, on the Northern Ohio, and Wooster, on the main line.

RAILWAY NOTES.

A number of roads have threatened to reduce the number of their hands because of the coal strike. But it is remedied for the Erie railroad to actually reduce hands in order to reduce the number of men who are supposed to be affected through a cessation of work in the shops. A notice has been posted in Hornellsville, N. Y., shops, suspending all emergency work.

The big freight locomotives which the Lake Shore recently ordered of the American Locomotive works are now under way and will all be built at Brooks plant in Dunelm. There will be 50 of them all of the 5000 type. All will be equipped with the popular Walschaert valve motion and the first installment of the order will be delivered next month. This class of locomotive has done great work and will haul 90 loads or 125 empties.

More four tracking is planned for the coming summer by the Lake Shore following the tremendous work which is now in course of construction east of Cleveland. The new work will be carried on from Cleveland west. There are some stretches of four track west of this city and the desire of the engineering department is to enter upon the general plan of further construction with the opening of spring.—Cleveland Plain Dealer.

OUTLOOK FOR BUILDING HERE

CONTRACTORS ALL SAY IT WILL BE A VERY BUSY SEASON THIS YEAR.

Newark Realty Though Advancing Is Not High in Comparison With Other Ohio Cities.

The beginning of spring in the real estate world brings with it the beginning of the busy season for business in all directions. It recalls the business activity of the season one year ago in comparison with that of this spring, and the prospects and outlook for this season along all business lines in the city. The most noticeable fact by which the business prospects of the present spring and the coming summer can be judged, and by which they can be in any way foretold, is that of the recent demands in realty.

A number of people, even those who claim to be good authority on real estate values, claim that real estate in this city is very high, no only from a local standpoint of comparison, but as compared with the values of property in adjoining places, and in fact in cities of Newark's size all over the state. This, according to property owners in Zanesville, Coshocton, Mansfield and several other neighboring cities, is not true. They claim that property in this city is exceedingly low considering the advantages of the place, and the rapid increase in business and in population. A prominent citizen of Zanesville, for example, purchased a property in this city on Hudson avenue not long ago, and when speaking of the price paid for it, he remarked that the proportionate difference which he would have been required to pay to purchase a property in the same relative location on the principal street of Zanesville, would be probably one thousand dollars higher. The advance in value in that city, however, does not appear to be nearly so rapid as in this place so that in reality the opportunities for owners here are great.

The demand for properties to rent is also increasing every day. Thursday, while an Advocate man was calling at a certain real estate office, in the space of five minutes there were two inquiries for houses to rent in North Newark. The dealer replied that at present every house on his list had been rented and that nothing was left. This fact suggests the necessity for advertising houses which are for sale or rent, because in a case where there is such a demand advertisements are observed closely.

Contractors all over the city are engaging their time for ahead. One contractor told an Advocate representative: "I don't remember having ever seen a spring when there promised to be such an amount of building done. I thought that last year was a capital one for the contractors in Newark, but I have come to the conclusion that this season has them all beat for proposed buildings, and especially about the square. Last year those additions were built up, and are not even done yet, but this year it seems that the building of these new additions has brought a demand for improvements about the square and nearer the heart of the city." Such is the style of the conversation of all men in the business lines, who are familiar with the conditions. They realize that the growth is wonderful.

It is also believed by many that the movement of the Newark Trust company in beginning the erection of the new skyscraper on the West Side, is a step which will be followed in a very short time by others about the square, and that it is the beginning of a movement toward the great improvement of the public square and toward accommodating the many business firms who seek a central location. The Trust company on Wednesday, received a car load of material to be used on the new structure. The siding near the Consumers Brewery in East Locust street will be used for the cars which will cover the immense amount of steel and other material which will be used in the new building.

Building Permits. Since April 1 the following building permits have been issued from the city office:

Mary A. C. Graft addition to dwelling on Brennan street, \$150.
D. C. Walker, 10 story frame dwelling on Hoover street, \$1700.
John Seigle, one story brick building and oven, Locust street, \$750.
A. J. Berry, two story dwelling on Seroco street, \$1200.
A. J. Berry, one story cottage on Seroco street, \$700.
L. A. Gault, six room cottage, on Boxton street, \$100.
Mrs. Joannah Zuercher, two story frame dwelling, west side of Union street, near West Main, \$2,000.

Removing a barn. The barn in the rear of the E. S. Browne property, corner of Granville and Seventh street, is being removed.

Will Remove House. W. F. Smith of 10 Columbia street has purchased from Mr. Fulk, the grocer, the small building opposite the Seller property on Granville street, and will remove it to a lot of

his on Columbia street. Mr. Fulk will build a barn on the lot.

Will Build Residence.

James A. Dwyer purchased one of the lots of the Harvey homestead on Fourth street Thursday, for a consideration of \$1200. Mr. Dwyer will erect a handsome residence at once.

Harvey Homestead. The Harvey homestead on Fourth street and Elmwood avenue, owned by Hoover & Montgomery, which was divided into lots some time ago, is selling rapidly, and on Wednesday Mrs. J. S. Seigler, wife of the well known market meat dealer, purchased two of the choicest for the consideration of \$2450. Improvement to the extent of \$2500 will be made by the new owners at once.

Real Estate Transfers.

Levi S. Loughman and wife to Arthur Snelling and Minnie Snelling, 66 1/2 acres in Hopewell township, \$900.

Ann V. Johnson to Sarah C. Dunlap, real estate in Burlington township, \$1,000.

NEW BUILDING

Will Probably be Erected on West Main Street by Frank Bader in the Near Future.

It was learned from good authority Thursday that a new three story building would be erected in the near future on the former Dr. King property in the rear of Stephan's department store. The property is now owned by Frank Bader and an effort was made to get Mr. Bader to verify or make some statement regarding the report, but Mr. Bader could not be seen Thursday. It was learned, however, that plans and specifications for the new structure have already been prepared and that the building will probably consist of business rooms on the first floor and living apartments on the second and third.

The new building will probably extend to within 20 feet of the west boundary of the property, and to the rear for a distance of 110 feet.

FIRE AT CROTON

Prompt Work Saved Hoover Livery Stable From Destruction—Hurtford Personal Items.

Croton, April 5.—Quite a little excitement was caused here Tuesday afternoon when the church bells began ringing, and the alarm of fire was given. It was soon found that the Hoover Livery stable was on fire, burning from a defective flue. The prompt assistance of the men who speedily gathered prevented what might have been one of the worst fires ever had here. It was extinguished with slight damage to the roof.

Dr. I. W. Haines was in Newark today on business.

Miss Florence Nichols of Granville was the guest of her friend, Miss Grace Wright over Sunday.

Mrs. Isiah Greck and daughter of Columbus are visiting at the home of T. J. Featherolf.

Mr. and Mrs. Clarence W. H. were in Columbus Saturday.

Clarence Green moved his family to Columbus this week.

A new time lock is being placed in the Citizens bank here this week.

Wesley Winlow returned to his home in Michigan Tuesday after a month's visit here with relatives.

The 1905 hop crop of O. Brown amounted to about 112,000 bales.

DRESS FOOTWEAR

BOBBY'S ESSAY ON ADVERTISING

"Bobby" in his essay on advertising printed in Hearst's Chicago American, has the following observations:

Advertising is where you go to a newspaper or bill board or somewhere & tell the world to come around & see you. It pays to advertise, because there has always been lots of it done. It began in the garden of Eden, the snake didn't start it either. Adam started it. He told lonely so he went and put an ad somewhere. I don't know the name of the paper, but I read Middle Aged Gentleman Wishes to Meet Refined Woman of Means, object matrimony & Eve saw the ad & seduced him. I am, I seen yure ad in the paper.

then the snake came along & put a snake on the tree of nollage, the snake said Right this Way to the Information Bureau, get a apple & Gilt Wise then Adam and Eve both inserted the ad & here we all are, advertising our selves.

All live creatures advertise, beasts & birds & men & everything, when a male is good and kind all day long he is just advertising for a sucker to come near his blind heels, when a peacock gets out in the sun and walks around it is advertising its fine feathers, even the fishes advertise, once herd of a pickerel that put an ad in the paper for a room mate but the pickerel got caught before anybody answered the ad.

the grate men of history were all advertisers, alexander the grate put a ad in the paper saving. Wanted moar worlds to conquer, but only 2 men answered the ad & they were both ophium friends, they sed they knew where there was a nice patch of worlds but they wudnt toll, Napoleon on beleved in ads, he went to Russia in the middle of the winter & kept 6 press agents working day & nite sending stuff to the hoam papers about how the boys was standing the trip they didnt stand it vary well.

there was a feller named Mark Antony who had a fine stoar in Rome & he went to Egypt & while he was gone his wife got mad at the editor of the Rome paper & she took out the big ad that Mister Antony always had in about the stoar & when Mark got back his bizness was all gone to the bad.

there are three kinds of ads, 1 good ads, 2 poor ads, 3 press agents, the best ads are in newspapers, the poor ads are on fences out in the country, and painted on barns.

"NOTHING NEW"

There is an old saying that "there is nothing new under the sun," and there is more truth than poetry in it. No one knows how many of what are called the inventions and improvements of modern times were in use in the "days before the flood" or subsequently in the prehistoric ages. One of the most remarkable duplicates of an old invention is the now famous and much used slot machine. This according to a correspondent of the Boston Herald was first used during the time and reign of Rameses, in the eighteenth dynasty of Egypt, for the purpose of supplying holy water, that which had been blessed by the priests to the people who desired it. The machine was urn shaped, with a small cylinder inside, through which ran a rod connecting a valve at the bottom of the cylinder with one at the top. These were operated by a lever which closed the bottom valve while opening that at the top, when the cylinder would fill with a fixed amount of water. To obtain the water a cup was placed at the outlet, a coin of three drachmae, equal to about 75 cents of our money, was dropped into the "slot" on to a scale pin. In the end of the lever; this opened the cylinder at the top and closed the lower valve, allowing the coin to slide off, the weight of water closing the top valve, opening the lower one and allowing the water to run into the cup. This is the basis of all patented slot machines of the present time, and dates back to nearly 3000 B. C.

Food For The Growing Child

Whole-Grain Preparations Declared of Greatest Value In Development of Body and Mind.

The growing child especially needs those elements that are found in whole grain preparations," says the writer of a recent magazine article on "The Best Foods for Growing Children."

Malta-Vita is the perfect whole wheat food, rich in every nutritive element demanded by the body of the child and just as healthful and strengthening for the child's parents and older sisters and brothers. Being a pure grain product—simply the little malt, mixed with pure barley malt extract—Malta-Vita supplies the body with all those food elements which make bone, muscle and brain and bring perfect health.

The malt extract is added after the wheat has been thoroughly cooked and steamed and converts the starch of the wheat into maltose, or malt sugar, which is highly nutritious and easily assimilated even by very weak stomachs. Physicians recommend maltose for its strength-giving qualities and treated with the malt extract, the wheat, rolled into little water flakes, goes to the ovens, where it is baked crisp and brown, delicious beyond description. All grocers, now 10 cents.

ABOUT PEOPLE

J. F. Meredith was in Columbus on business Wednesday.

E. D. Powers of Johnston was in the city Wednesday.

C. L. Runnels of Appleton was in Newark Wednesday.

Allen B. Coffman is reported to be quite sick.

Jack Cada is spending his vacation with Raye Wilson of Newton Chapel.

Miss Olive Smith and Miss M. Sturkey spent Wednesday in Columbus.

Mrs. Rave McWilliams and daughter, Miss Elsie, were in the city Wednesday.

Miss Ida Willard left his morning for an extended trip to Denver, Col., and other western points.

Mr. John Shell, who lives near Thornville, was in the city Thursday and made the Advocate a pleasant call.

Mrs. W. A. Cooper of Palo Alto, Calif., is visiting her cousins, Mrs. Mason and Mrs. Burnfield, on South Morris street.

Mr. and Mrs. Edward Chittote, who were called here to attend the funeral of Miss Pearl Miller, have returned to their home in Kansas City.

James Croft has returned to his home at Newark, after spending a few days at the home of his mother, Mrs. M. A. Croft, of East Third street—Mansfield News.

Mrs. Anna Goff of Newark, was the guest of her sister, Mrs. Frank Kelley Saturday and Sunday. Mrs. Lydia Neethan went to Newark Wednesday to spend a few days with her daughter, Mrs. W. B. Hahn. Frank Kelley has gone to Newark where he takes charge of a construction train—Patoka Standard.

OHIO WHEAT IS IN GOOD CONDITION

Columbus, April 5.—Ohio wheat emerged from the winter in better shape than for many years. The April bulletin of the State Board of Agriculture issued today, shows the condition of growing wheat 101 per cent of the average condition in past years at this period. This is remarkable considering the only protecting snow was during March. The high average condition is uniform, but ten counties reporting an average of less than 90 per cent, but fewer acres of wheat were sown in Ohio than for many years. This must be considered in figuring the total yield. The acreage is 1,186,647. The farm labor problem is reported serious because of the growing tendency of boys towards the city. Farm hands are scarce and wages are high.

CIVIC IMPROVEMENT.

The women organized a Civic Improvement society on last Saturday. There was a good attendance. Many of the churches were represented and the following women's clubs: The Monday Talks, Progressive, Proctor, Unity Circle, Research, King's Daughters, Review. Committees were appointed on nominations and constitution. On next Saturday, April 2, at 2 p. m. in Y. M. C. A. parlors the next meeting will be held at which time officers will be elected and plans of work outlined. It is to be hoped that many more women of the city will be present and that much good will be accomplished this year in the improvement of our city. Committees will be appointed to co-operate with the Men's League in every good work. We heartily endorse all that the health officer said in his recent article on "cleaning up," and we shall be glad to help the board of health in their efforts.

Can there not be some arrangements made for the carrying away of garbage and refuse, even if the city cannot bear the whole expense, the citizens can do part of it. As it now is, we must pay 25 cents to have a small cart hauled away. This should be done at least once a week—but many people cannot afford it at this rate, and consequently garbage is allowed to accumulate until there is a load of it. This should not be. It is filthy and unsanitary. If the city could furnish wagons and allow the people to pay a nominal price for it it would add much to the comfort and cleanliness of back yards. Are there any suggestions to be made on this important subject?

Also the statement made by our mayor in the papers recently about burning papers in the alleys and on the streets, meets with the hearty approval of a large number of our citizens. It should be prohibited. Half-burned papers blowing about not only make a dirt, but it is unsafe.

The removal of boxes and general trash from our streets that are in the way of service has in charge, is a good move in the right direction. Let the "direction" reach to every part of the city and rid our streets of these nuisances.

Will the women who are interested in improving their city keep in mind the meeting next Saturday at 2—and come.

Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.

REVIEW CLUB

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of the tube hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. LONGWORTH OHIO MEMBER

Republican Congressional Campaign Committee Selected.

A CAUCUS HELD AT CAPITOL

Governmental Ownership of Public Utilities Favored by Senator Newlands in His Speech on the Rate Bill—President Roosevelt Criticized in the House.

Washington, April 5.—In the senate Mr. Newlands discussed the railroad rate bill and Mr. Daniel the question of the lack of representation by the southern states in the public service. Mr. Newlands advocated amendments to the rate bill providing for the national incorporation of railroads, and announced himself as favorable to the governmental ownership of those utilities.

The house listened to a criticism of the president by Fitzgerald of New York for the failure of the chief executive to properly advise the house as to the objections he had to the bill opening 505,000 acres of land for grazing purposes in Oklahoma territory. Instead of advising the members of the Indian affairs committee as to the weakness of the measure so that it might be amended to meet the wishes of the commissioner of Indian affairs, Mr. Fitzgerald in the course of his strictures on the president said: "This is not Russia. The president is not like the czar, who originates and enacts legislation. The president may recommend but he can neither originate nor enact legislation. Somebody may say this is trivial. The history of all governments which have parliamentary institutions shows that the failure to resist trivial encroachment on the part of the chief executive has led to vast encroachments until the legislative branch of the government existed in name only."

Republicans of the senate and house met in joint caucus and selected members of the Republican congressional campaign committee. Senator Allison called the caucus to order. In doing so he directed attention to the fact that this was the first step in a campaign which would doubtless prove very interesting, and the importance of which was apparent. He nominated Speaker Cannon as presiding officer of the meeting and the speaker was received with applause. He too spoke briefly of the situation, indicating that the campaign already was being made and the result in November depended on legislation now being enacted. The committee was then named. A meeting of the committee for organization will be called either the last of this week or the first of next. Among the members selected on the committee were the following: Delaware, H. R. Burton; Illinois, J. R. Mann; Indiana, Charles B. Landis; Kentucky, J. B. Bennett; Maryland, S. E. Mudd; Michigan, J. W. Fordney; Missouri, Richard Bartholdt; North Carolina, E. S. Blackburn; Ohio, Nicholas W. Longworth; Tennessee, N. W. Hale; Virginia, Campbell Stemp; Washington, F. W. Cushman; West Virginia, B. B. Dovenor; New Mexico, W. H. Andrews; Oklahoma, B. S. McGuire.

BAPTIST MEETING PUT OFF TILL '07

Louisville, Ky., April 5.—The executive committee of the Baptist convention of North America has postponed the annual meeting which was to be held here May 15 until 1907 owing to trouble in securing railroad rates and confusion of dates. The chief cause is believed to be the hopelessness of solving the negro question. The convention contains many colored delegates, and local Baptist churches objected to receiving them.

The Census Bureau has fixed the cotton crop for 1905 at 10,697,013 bales, as compared with 12,637,310 the previous year.

In 1905, Italians to the number of 279,000 came to this country.

There are 16,642 boot and shoe workers in Mexico, and the wages run from \$2 to 50 cents a day.

SOME THINGS THE SOLONS DIDN'T DO

SENATE NOT TO BLAME FOR THE FAILURE TO PASS THE BANKING BILL

Or For Failing to Correct the Errors in Primary Elections—The Negative Side.

Columbus, O., April 5.—As a part of the record made by the Ohio legislature in the session that ended Monday, one must take into account some of the things the legislature did not do or refused to do as well as what was done—its deeds of omission as well as its commission.

Failure to enact a banking law must rest on the senate as the house submitted two measures to that body. First the complete bill advocated by the Ohio state board of commerce, the details of which were widely published and discussed, then the substituted bill for inspection only put through the house the last day under suspension of the rules in the hope that the senate would give it like consideration. But the senate refused to sus-

SENATOR HUFFMAN.
Author of Primary Elections Bill Defeated by the House.

pend the rules, so the inspection bill was left in the heap of "unfinished business" along with the original banking bill and many other measures. These banking bills retain their parliamentary status and may be given immediate consideration when this same legislature meets again in January, 1908, for the regular biennial session required by the constitution.

Any attempt to make political capital of the failure on the senate's part to pass either of the banking bills, which certain Republican papers and influences are trying to force into the public mind, must fall to the ground in the light of fairness to a parliamentary body so evenly divided politically that one man without party alliance held the balance of power. The senate in all political essentials was Democratic, and its record will bear the test of fair comparison with the record of the house, where the Republicans had absolute political control even though by the narrow margin of three votes. The house demonstrated time and again that the margin was wide enough for all partisan purposes when the Republican bosses ordered a line-up.

This was a commercial question, not a political issue, and men differ on commercial questions regardless of their political alliances. To the charge from the Republicans who are trying to make political capital of the senate's failure to pass the bill that there was ample time for the senate to become thoroughly familiar with the provisions of the banking bill fathered by Mr. Thomas (Rep) for the state board of commerce, because the details of the measure were widely published, the senate can truthfully and consistently make reply that if there was neglect at all it was on the part of the house.

Legislative bodies move differently from the unorganized public in dealing with questions before them. The public may think about what it pleases when it pleases. A well ordered legislative body will think about the questions actually before it, that "all things may be done decently and in order." The senate could not give official consideration to the banking bill until it came regularly before that body after being passed by the house. And here is where fault, if any, lies with the house. The bill originated in the house. It was a long time before that body. Meanwhile the senate was giving necessary attention to questions actually before it. The house held back the banking bill until the last week of the session, then put it through and expected the senate to stampede it through in the crush of business at the close of the session without taking time to examine it or to analyze the amendments made to the bill on the floor of the house. The house had this bill under its wing two months, the senate less than a week so that if there is any blame for neglect or delay charge it to the house.

The same is true of the primary elections bill. The Democratic party is just as desirous of primary election reform as the Republican party dare to be. A primary elections bill was passed by the senate that was just as good as the bill passed by the house. The Huffman bill, of course, was not "acceptable" to Republicans because its author was a Democrat, yet Republicans brazenly blame the senate because that body would not pass the bill introduced in the house by a Republican. The senate had as much right and as much political probity to

insist that the house accept the Huffman bill as the house could have to insist that the senate pass the Bronson bill.

To howl at the senate for not obeying the dictum of the Republican branch of the legislature is part of the present purpose and probable program of Republican papers during the next two years, but it should neither alarm nor deceive Democrats. The sins of the house be on the heads of its own Republican leaders and bosses.

Many other measures fell by the wayside during the session. Among bills defeated or left suspended by the senate are the following:
S. B., by Mr. Schmidt, to repeal the act providing capital punishment for assassination or attempted assassination of president, governor or officials in line of succession to these offices.
S. B., by Mr. Howe, to provide for quadrennial instead of decennial reapportionment and equalization of real estate values for taxation, and to abolish the state board of equalization, the assessors to be named by county auditors; yeas 11, nays 23.
H. B., by Mr. McFadden, forbidding the manufacture and sale of cigars in Ohio; shelved by senate committee on temperance.
S. B., by Mr. Rose, for county local option, strangled by senate committee on temperance.

S. B., by Mr. Howe, to create a state civil service commission and for classification of minor employees in state institutions.
S. B., by Mr. Howe, to tax franchise values of quasi-public corporations went over to next session as the senate refused by vote of 17 to 16 to take it up out of its order.

S. B., by Mr. Pollock, to legalize pool selling at race courses in the state; 12 yeas, 18 nays. This bill sought to re-enact the Chisholm pool selling bill passed in 1904, which was vetoed by Governor Herrick.

S. B., by Mr. Schmidt, to exempt witnesses from prosecution for giving incriminating evidence at legislative investigations; yeas 11, nays 17. This bill was intended to apply to the Cincinnati investigation.

S. B., by Mr. Pollock, to add a penalty of \$5 to flag law for failing to display the United States flag on school houses.

The following bills were defeated or left as "unfinished business" by the house:
H. B., by Mr. Stockwell, that renewal of an expiring franchise be let to highest bidder and ordinance referred to voters on petition signed by 10 per cent of voters; yeas 51, nays 38, lacking 10 votes of passage. It was one of Mayor Johnson's franchise measures.

S. B., by Mr. Lamb, to restrict jurisdiction of justices of the peace to township in which elected.

S. B., by Mr. Espy, to substitute the Massachusetts form of ballot for the Australian ballot, left in house committee on elections.

H. B., by Mr. Kollinsky, to prohibit giving of passes to public officials by railroads, and all other anti-pass bills left in committee.

H. B., by Mr. Stewart of Clarke, and all companion insurance bills, left in committee.

H. B., by Mr. O'Rourke, to abolish capital punishment, indefinitely postponed by vote of 70 to 34.

H. B., by Mr. Elson, requiring hunters to take out gun licenses; indefinitely postponed.

S. B., by Mr. Schmidt, to abolish capital punishment for murder; left in committee.

H. B., by Mr. Briggs, to permit women to votat local option elections, as advocated by the W. C. T. U. This bill was defeated by a vote of 51 yeas to 66 nays after a spirited debate during which speakers opposing the bill were hissed by women in the galleries.

H. B., by Mr. Jones, providing for collection of dog tax by assessors.

H. B., by Mr. Bassett, extending to women the privilege of voting on all questions relating to public schools submitted to voters, which would have permitted women to vote on bond issues for school purposes; yeas 51, nays 62.

H. B., by Mr. Lybarger, to restrict state aid for Athens and Miami universities to their normal departments, referred to a special committee by agreement that it should not be reported.

H. B., by Ashbrook, a salary bill for infirmity directors, indefinitely postponed.

H. B., by Mr. Adler, to delegate to city councils authority to regulate Sunday amusements so as to evade state laws forbidding such amusements; yeas 8, nays 88.

H. B., by Mr. Wynne, to abolish convict contract labor and to provide that convict labor shall not compete with free labor. Subsequently the Wertz convict labor bill for the same purpose was enacted.

H. B., by Mr. Pett, requiring that all judges except police court judges shall be lawyers.

H. B., by Mr. Spangler, to make it a misdemeanor for one to treat an other with intoxicating liquor; yeas 47, nays 44.

H. B., by Mr. Metzger, pertaining to the granting of franchises for street railways, as advocated by Mayor Johnson of Cleveland. Yeas 49, nays 55. The bill in amended form was reintroduced by Mr. Metzger.

H. B., by Mr. Yost, to license stationery firemen, indefinitely postponed by a vote of 58 to 15.

H. B., by Mr. Woodburn, to cut off fees of county auditors for collecting and distributing the Dow tax.

ORWELL C. RIDDLE.

CLEARING UP IN THE WEST

Situation in the Soft-Coal Fields Satisfactory to Mitchell.

MORE MINES IN OPERATION

Anthracite Scale Committee Decides to Modify Its Demands, According to Report—Joint Conference Again in Session at New York—The Latest Developments.

New York, April 5.—Nearly all the operations in the anthracite coal fields remain tied up, and there are no indications that work will soon be resumed. The miners' committee held a prolonged session in New York considering plans, and at the conclusion of the meeting it was reported that the mine workers' representatives had decided to modify their demands. President Mitchell declined to make any comment upon the situation and also refused to confirm or deny the reports of concessions. The subcommittee of the miners and the operators are holding another conference this afternoon.

In the bituminous coal fields there were more mines in operation than on the previous day, and many more are to resume within a day or two. The number of men at work in the Pittsburgh district, however, was not as large as was expected. This was due, it is said, to the factional troubles within the miners' union in that territory. Negotiations are under way between the miners and operators in several districts outside of the central and southwestern territories, and while no agreements have yet been reached, no serious trouble is anticipated.

The mine workers' leaders were much pleased when they learned that President Roosevelt had declined to take a hand in the soft coal strike so long as the situation remains as at present.

Slight disturbances were reported from several points in the anthracite and bituminous regions, but as a whole the strike-affected territory remains quiet.

President Mitchell is devoting almost as much time to the situation in the bituminous fields as he is to the hard coal regions. He is hourly in receipt of telegrams from his lieutenants and from coal operators in the west. When asked how matters stood in the soft coal fields he said: "Entirely satisfactory to me. I believe the situation in the west will soon be cleared up."

Picketing General.

Philadelphia, April 5.—A feeling that a satisfactory arrangement will be made by the operators and miners' representatives when they again meet in conference in New York prevails throughout the anthracite region. This feeling is due to the reported conciliatory attitude of both parties to the conference. While hopeful of peace, however, the miners are preparing for war, as is evidenced by the fact that picketing has become general throughout the region. At Yatesville, near Wilkesbarre, a number of pumpmen employed at the Fernwood colliery of the Pennsylvania Coal company were attacked by foreigners, which resulted in a call for the state police. No arrests were made. In the upper region the companies are exerting every effort to operate their wash-cities.

Predict Early Settlement.

Indianapolis, April 5.—An early settlement of the coal strike is predicted by the United Mine Workers' Journal, the official organ of the United Mine Workers of America. According to the reports from district officers of the miners' organization, it is stated that 70 per cent of the tonnage of the bituminous fields has either signed the scale granting an increase in wages or has signified an intention of doing so.

President and the Strike.

Washington, April 5.—It is stated at the White House that the president has made a reply to the telegram received from the coal operators; that while the text will not be made public, there is authority for the statement that the president has decided not to interfere as long as conditions remain as they now are.

DOLAN EXPELLED

Pittsburg, April 5.—Delegates to the district miners' convention now in session here, this morning expelled President Patrick Dolan and Vice President Bellingham from the organization.

The Geological Survey reports the anthracite coal yield of Pennsylvania for 1905 as the largest on record, amounting to 69,129,152 long tons, valued at \$141,879,000.

An anarchist plot was discovered at Toledo, Spain, the notorious center of the Black Hands, to assassinate the royal family during the visit of King Alfonso to Seville.

On May 14, at Boston, Mass., American Federation of Musicians will meet in convention.

IMMORTAL J. N. IS NOW IN ASYLUM

ECENTRIC CHARACTER WELL
KNOWN IN NEWARK ENDS
HIS TRAVELS.

As a Young Man J. N. was Leading
Criminal Lawyer in Cincinnati.
Says He's Not Crazy.

The "Immortal J. N." one of the most eccentric characters of a generation, has reached the end of his travels. Jacob Newman Free lived for half a century as the sparrow lives. Like the Apostles of old he took neither scrip nor purse on his incessant journeys. He had passes for life on all the railroads and every inn was his free lodging house. He was the best known character in the middle west. At the age of 78 years, still straight as an Indian, he has been sent to an insane hospital at Toledo.

The "Immortal J. N." as he called himself, not out of egotism, but of sincerity, was princely in physique. As a young man he was the leading criminal lawyer of Cincinnati. A half century ago his mind became unhinged and he became a wanderer on the face of the earth.

J. N. posed only as the apostle of truth and righteousness. He believed all men were under a "pressure," which it was his mission to lift from their shoulders. "Men say I am crazy," said J. N. on the street corners of Columbus dozens of times, "but it is they who are crazy. Look at them!"

Although warped mentally his best instincts were preserved. Grace, courtesy, knightliness, purity and wondrous kindness marked him. Occasionally flashes of the once imperial mind bespoke the inherent greatness of the man.

Every newspaper man in the Mississippi Valley knew J. N. He was always coming and going and always welcome. Had he not been so busy, he would have been a potent force. Harmless as a child, gentle as a woman, he reminded one in a way of what the Nazarene must have been.

And now in his old age he goes willingly to the sanitarium as ever he went to dinner. There will be no trouble with him. He will go on trying to "lift the pressure" from the burdened minds of his hospital fellows.

"Yes," said the bright old fellow, with his halo of gray hair, a few days ago, when they took him to the infirmary, "men have always said I was crazy. But they do not understand the simple life of the philosopher. It is they, poor fellows, who are crazy."

Is there any glimmer of truth in the saying of the old man?—Columbus Press.

HORSTMAN A CANDIDATE.
Cincinnati, April 5.—Friends of Theodore Horstman today announced that they will push his candidacy for the Republican nomination for Congress in the First Ohio district against Nicholas Longworth. Horstman is a Cincinnati attorney and was former candidate for mayor of Cincinnati on the fusion ticket.

ENROLLMENT AT OLD DENISON

NEARLY 550 STUDENTS THERE
SHOWING AN INCREASE OF
60 OVER LAST YEAR.

Prof. Carman Has Sample of Philippine Paper Money—Daniel C. Collins Died Sunday.

Gianville, O., April 5.—Advance reports of the enrollment of Denison university show that 543 students are enrolled in the institution, being an increase of sixty-one over last year. Rev. A. S. Carman, educational secretary of Denison university, is the possessor of a piece of paper money seldom seen in this part of the country. It is a sample of the currency used in the Philippine Islands, and its value is two pesos, equal to one dollar in United States money. It was sent to Dr. Carman by Prof. C. H. Storms, Denison '02, in payment of his alumni dues. Prof. Storms, after graduating from Denison, took a course in the University of Chicago, after which he went to the Philippine Islands, where he holds the position of supervising teacher, with fifteen native teachers and 1000 pupils under him.

Daniel Charles Collins, son of Mr. and Mrs. C. W. Collins, died Sunday morning at 9:30 o'clock at the home of his parents in Prairie Depot, after a short illness. The deceased was born March 3, 1904. The funeral services were held at Prairie Depot on Monday, and the body was interred in the Alexandria cemetery.

Messrs. W. A. Ruster and Dan Blee will engage in the manufacture of concrete building block on a large scale, near the T. and O. C. depot. The machine has been ordered and the firm expects to begin work next week.

Mrs. Lou Ackley and Miss Ada Strickler were visitors of Miss May Lewis of Moul street, Newark, on Wednesday.

CITY OFFICIALS GET A DECISION

FROM ATTORNEY GENERAL LET-
TING PUBLIC FUNDS ON
DEPOSIT.

Matter is Now in Litigation Before
Common Pleas Court and the
Decision is a Timely One.

Attorney General Wade H. Ellis has handed down an opinion on the various injunction cases which have been filed against the city officials in the matter of letting the public moneys out on deposit in compliance with an ordinance passed by the city council. The attorney general holds that the action of the city council in ordering the city auditor to readvertise for bids for the deposit of the funds was perfectly legal and that without re-advertising, they would have no right to award to the Newark Trust company any portion of the money.

The controversy in brief is as follows: The council advertised for bids for the deposit of the city funds. Two were received, one offering 2 per cent, and another offering 1 1/2 per cent. The latter was from the Newark Trust company. According to the code, no amount to exceed the amount of paid-up capital stock and surplus can be awarded to any bank. Therefore, there was a sum amounting to something less than \$50,000 left over after the Licking County Bank had been awarded their full quota. The balance, the solicitor held, should be awarded to the Newark Trust company as next lowest bidder. The council thought otherwise and in spite of the protestation of the solicitor ordered the auditor to readvertise for bids.

The attorney general stated in his report on the case that he would make arrangements to have counsel representing the State Auditor's department present at the hearing of the injunction suits filed by the city solicitor in the Common Pleas court.

A TINY REVOLUTION.
Washington, April 5.—The navy department today has a dispatch from Commander Sutherland, commanding the United States naval forces stationed in Dominican waters stating that a small revolution has broken out at San Juan, northern Santo Domingo. American property interests are not in danger.

Falls are said in Denmark by the score more commonly than by the dozen.

MR. AND MRS. CONDIT MARRIED 50 YEARS

GOLDEN WEDDING CELEBRATED
AT THEIR HOME NEAR
PATASKALA.

Eighty Guests Present, One of Whom
Attended Their Marriage in
Year of 1856.

Pataskala, O., April 5.—Mr. and Mrs. M. C. Condit celebrated the fiftieth anniversary of their marriage at their pleasant home 2 1/2 miles east of town on March 27.

There were eighty guests invited but a few were not able to be present on account of illness and old age. Mr. and Mrs. Condit were assisted in entertaining by their son and wife, and their niece, Miss Harriet Condit.

The honored couple are only young in years; they are just as light of heart and cheerful in manner as when they started on their wedded life fifty years ago.

A splendid dinner was served during which time reminiscences of the lives of the bride and groom of fifty years ago were told. One of the guests, Mrs. Fisher of Sunbury, had been present at the wedding dinner in 1856. The afternoon was spent in social chat interspersed with songs appropriate to the occasion, and everyone thoroughly enjoyed every feature of the celebration. Many handsome presents were received.

Mr. and Mrs. Condit have spent all their married life in this vicinity and are widely and favorably known. They are strong supporters of the church, Mr. Condit having been an elder in the Presbyterian church for the past 31 years.

There is hardly a king in Christendom today whose wife does not overtop him by a head.
